(54) Title: METHOD AND SYSTEM FOR SCREENING AND INDICATING INDIVIDUALS WITH HIDDEN INTENT

(57) Abstract: A system for screening and indicating individuals with hidden intent that includes: a working place (101) for fulfillment of a stated assignment. The system further includes a stimuli exposure block (102) for exposure of a stimuli to the working place. The system further includes sensors and measuring tools block for registration of individual's psycho-physiological characteristics giving rise to registered parameters. The system further includes databases block for storing of data related to screening and indication setup and execution. The databases block (104) includes; tools and sensors database including data about a stimuli exposure (102) tool and a sensor and measuring tools (103); a stimuli database including a stimulus. An exposure procedures (104e) database includes an exposure scenario and psycho-physiological characteristics to be registered.
